Product highlights

Play movies on PC, watch on TV

Download and store your movies on your PC and view them from the comfort of your couch in the living room. No hassle burning downloaded movies on to CD or DVD, but just play and enjoy.

Enjoy PC music on audio system

Enjoy the music stored on your PC on your home audio system. Simply put the PC in play mode and listen to the music where you want.

View photos stored on PC on TV

Keep your photo, music and movie collection centrally stored on your PC and enjoy them on your TV and audio system in the living room.

Wireless means no drilling

A 2.4 GHz wireless link between the receiver and transmitter means you don't have to lay cables or drill holes through walls.

Wireless goes through walls

There's no need to buy or rent duplicate A/V equipment. The wireless RF system extends your possibilities for viewing DVD movies and your favorite Satellite or TV channels anywhere in your home. With a range of up to 30 meters inside the house, it delivers high-quality video and stereo audio no matter where your second TV is located.
